

# Is Invisalign treatment right for you?

For many people, the answer is yes. Whether you just want to love your smile a little more, or got a particularly tough case. Fill in the below evaluation wizard and get to know if Invisalign is right for you

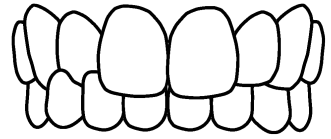

Select one of the below images that best describes your smile

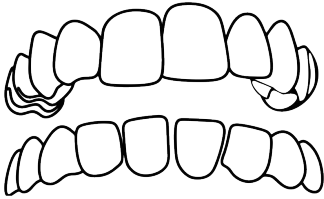

Deep Bite - Upper front teeth close in front of the lower teeth.

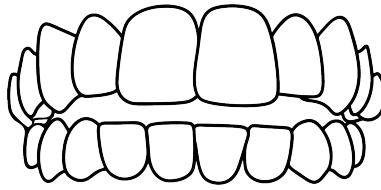

Underbite to Front Crossbite - Lower teeth protrude past upper front teeth.

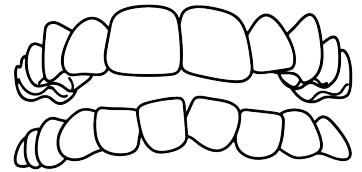

Back teeth Crossbite - Upper and lower jaws don't line up.

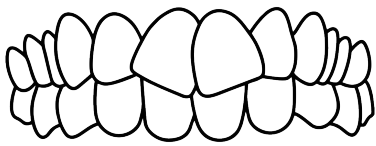

Complete Openbite - Space or gap between teeth.

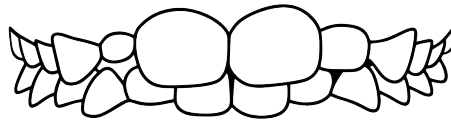

Front Teeth Openbite - Top and bottom teeth don't meet.

Crowding with Openbite - There isn't enough room in the jaw for teeth to fit normally.

Front Rotated Teeth - When you just want a more beautiful smile.

Mixed Dentition with Undersized/ malformed or baby teeth - Phase 1 orthodontic treatment for growing children with a mix of baby and permanent teeth.
